Summer Nature Camps

"Where Learning
Comes Naturally"

2024

8 Weeks of
Day Camp

New! 3 Weeks of
Overnight Camp

Day Camp Sessions

June 24-28 -Into the Wild

Learn about all the different mammals we have in the area.

July 1-5- Water World

Campers will be able to participate in fishing, canoeing, waterfall exploration, and pond searching.

July 8-12-Winged Wonders

Dive into the birds, bats and insects that fly past your heads.

July 15-19- CSI Week

Become a Crime Scene Investigator for the week and help solve a wildlife mystery that has occurred on PEEC property!

July 22-26- Recreation Fitness

While playing large games and fun sports learn about how to make what you are doing more sustainable for the environment and your life.

July 29-Aug 2-Digging for Dinos

Come join us for a week of exploring different prehistoric creatures & geological history!

Aug 5-9- Animal Olympics

Campers will participate in different Olympic events using animal adaptations from field races to frog collecting!

Aug. 12-16-Outdoor Survival

Campers will learn about backpacking, purifying water, building shelters and fires, edible plants, animals to avoid, and practice fishing.

"We sent our three kids to PEEC last summer. Our older two (9 and 11), who tried several different summer programs in the past, say this is the best one they've been to. Our little guy (4), for whom this whole experience was brand new, was in no hurry to go back home and was upset to find out that there is no camp during weekends. As parents we found PEEC to be a wonderful and well organized environment that allowed our big-city-kids to connect and enjoy nature. PEEC has the perfect balance between silly summer fun and meaningful learning. Highly recommended!"

"My daughter (5) absolutely loved her time at PEEC. She has attended Day Camp in the past and was not about it. She could not wait to go back every morning to see her friends and teachers. PEEC helped her overcome her fears of all the bugs in the outdoors."

"My children loved it so much that they woke up extra early every morning begging to go in before camp started and struggled to leave everyday. Highly recommend the staff were all great!!!"

New! Overnight Camp 2024

Our week long overnight camp is for campers entering 5th-10th grade!

Our Overnight programs will be 6 days, 5 nights. Campers will enjoy a week of themed programming while participating in PEEC activities. Each week they will get to cook dinner over a campfire.

PEEC into Space- July 7-12

\$900

Come stay with us and enjoy the night sky! Campers will have the opportunity to sleep in late in the mornings, and stay up late at night.

Summer Survivor- July 14-19

\$900

Do you have what it takes to survive in the wilderness? Our new program will offer campers the opportunity to learn more about the outdoors and see how well they can survive in the wilderness.

THE SCI-Q
PROJECT

Sci-Q Project-June 16-22

**Application
Required**

Students will interact with local college professors, hand-picked for their fun, approachable nature, as they showcase their research in a variety of fascinating fields. They'll also share their personal stories about the challenges and rewards of becoming scientists. It's a once-in-a-lifetime opportunity that will give you a definite edge in this exciting career path. The program is limited to just 20 talented students who will be entering grades 8-10 in the fall of 2024.

The 2024 Sci-Q Project is funded by grants and donations
